Mar-Hy Distributors: Leading the Way in HVAC Training

Unlock Your Potential with Our Expert-Led HVAC Training Classes

At Mar-Hy Distributors, we are committed to empowering HVAC professionals with the knowledge and skills they need to excel in their careers. Our comprehensive training classes are designed to cover all aspects of HVAC systems, from fundamental principles to advanced techniques.

Why Choose Our HVAC Training?

- **Expert Instructors:** Learn from industry experts with years of hands-on experience.
- **Comprehensive Curriculum:** Our classes cover a wide range of topics, including installation, maintenance, troubleshooting, and the latest industry advancements.
- **Hands-On Experience:** Gain practical skills through interactive sessions and real-world simulations.
- **Flexible Scheduling:** We offer classes at various times to fit your busy schedule.
- **Certification:** Receive certification upon successful completion of our training programs

Join the Mar-Hy Distributors Community Today!

Stay ahead of the curve with the best HVAC training in the industry. Don't miss out on this opportunity to enhance your skills and advance your career. Scan the QR code now to get started!

HVAC'S FIRST-CHOICE POWER TUBE BENDER

It is a tough and frustrating job for HVAC Service Techs when bending large diameter tubes, which consumes tremendous labor work while needs precise focus on bending angles. Furthermore, to get the tube out of a traditional bender mandrel is another frustrating moment. Suitable for tubing sizing 1/4" to 7/8" OD, NAVAC NTB7L saves tons of your time and labor, and makes the job much easier.

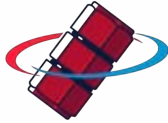

By pressing a single controller switch, you can bend the tube to any desired angle. When a bend is completed, the baffle will push the tube out automatically while tool resets, helping you to remove the tube effortlessly. Its large capacity lithium battery makes over 100 bends each charge and can be fully charged in 30 minutes.

The reverse bending kit NTB7L is available and sold separately

\$66.49

96415

RSH-50 Surge Protective Device (SPD)
for Single-Phase System 120/240 VAC Type 1

Features

- Long-Lasting Gas Discharge Tube Technology
- TFMOV Technology
- Limited Lifetime Warranty
- Green LED Easily Indicates Protection
- Weather-Rated under NEMA 4X

RSH-50 with 30A Fused Disconnect

Disconnect Box with a pre-installed RSH-50 Surge Protector. Our RSH-50 is tabbed into the disconnect, to avoid any potential code violations with multiple wires being lugged in.

Features

- Fused Disconnect Box
- Long-Lasting Gas Discharge Tube Technology
- TFMOV Technology
- Green LED Easily Indicates Protection

Designed to protect all single phase, 120/240-V air conditioning, heat pumps and ductless mini-split systems (DMSS) from transient over-voltage and natural-cause surges.

CONTROLS

This Precision Torch produces a stable, perfectly controlled thin flame ideal for use in difficult to reach areas and where detailed work is required. Supplied with 3 welding tips, this torch can easily complete the most delicate brazing tasks.

This torch is an accessory for the Ambro Controls Oxyset (Product No. 1811168), designed for use with the kit in tighter narrow spaces, where precision is needed.

Supplied in a handy carry case, this precision torch includes a torch handle with built in gas and oxygen controls, 3 welding tips, and 6.5ft Twin hose assembly.

Application: soldering, brazing, welding.

Part Number (SKU): 1811161.

FOLLOW THE STEPS BELOW TO REDEEM YOUR FREE VETO PRO PAC!

STEP 1

- Purchase a qualifying Tier 1 or Tier 2 bag between March 1, 2025 - May 31, 2025*
- To view a list of qualifying bags, visit www.vetopropac.com/springpromo2025 or scan the QR code

*TO QUALIFY FOR FREE PRODUCT, PURCHASE INFORMATION MUST BE SUBMITTED ONLINE ONLY BY JUNE 15, 2025

STEP 2

- Go to www.vetopropac.com/springpromo2025 or scan the QR CODE on the right
- Click on the Tier 1 or Tier 2 redemption links

On the Tier 1 or Tier 2 redemption forms you will need to:

- Enter your shipping information
- Type UPC bar code from product's hangtag
- Upload sales receipt (purchase date on sales receipt must be between March 1, 2025 - May 31, 2025)**

**NO EXCEPTIONS - SALES RECEIPTS BEFORE AND AFTER THESE DATES WILL NOT BE ACCEPTED

STEP 3

Veto Pro Pac will send out a confirmation email providing a ship date range for the promotion item.

The open top WRENCHER tool bags were designed based on professional insights to accommodate tools used by plumbers. Each bag has a water repelling tarpaulin interior and includes two V-SWAP™ panels (Tool Panel and Tank Panel) of vertical pockets to accommodate a variety of hand tools, equipment or bulk storage when removed. Additional panels may be purchased separately. These versatile bags offer multiple storage options in a rugged platform with an injection molded polypropylene waterproof base

Efficient Heat Pump Water Heaters

Top Choices by Ruud

*Earn a \$150 rebate on every RUUD hybrid water heater ORDERED
as we earn your business - Seriously, it's like we're paying you*

Top Rated Models

Ruud Professional Ultra™ Hybrid Electric Water Heater
(50, 65, and 80 gallons)

Model Numbers: PROUH50, PROUH65, PROUH80

Efficiency:

- Up to 4.0 UEF,
- ENERGY STAR® rated

Capacity:

- Available in 50, 65, and 80-gallon sizes

Features:

- Integrated EcoNet® WiFi technology,
- LeakGuard™ protection
- advanced humidity control

High-Efficiency Model

Efficiency:

- UEF up to 3.8

Capacity:

- 50 and 80-gallon options

Features:

- WiFi connectivity
- smart control
- durable construction

WHY **HYBRID**

An Intelligent Replacement Solution

Flexible install, faster service and an easy sell, the new Ruud® Hybrid Electric Heat Pump Water Heater is the most efficient water heater available. It delivers impressive savings for homeowners—right away with up to \$2000 federal tax credit and local utility rebates,¹ and ongoing with up to \$491 energy cost savings each year.² Plus, it's full of smart features your customers will love—from built-in Wi-Fi to our exclusive LeakGuard™ leak detection and prevention.³

Duct-capable Air Inlet

UP TO
4X
THE EFFICIENCY
of a standard
electric water
heater

VALVE QUICK-RELEASE

If the actuator communication goes bad between the control and valve, you can replace it without touching the plumbing for faster service.

LEAK SENSOR CHANNEL

Leak sensor replacement is easy by opening the bottom element cover and snaking the new leak sensor down the tube—360° protection, all from the front of the tank.
